

## How to download the update Qwanto! version

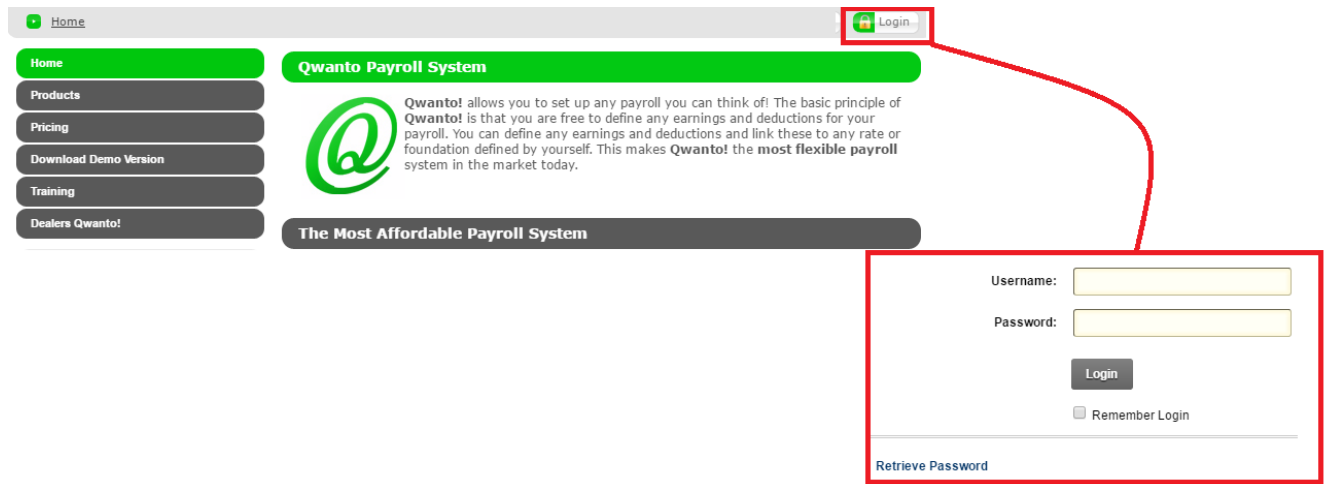

On each PC where Qwanto Software is installed you have to install the Update Version!

Your Qwanto Software must be closed during the downloading process.

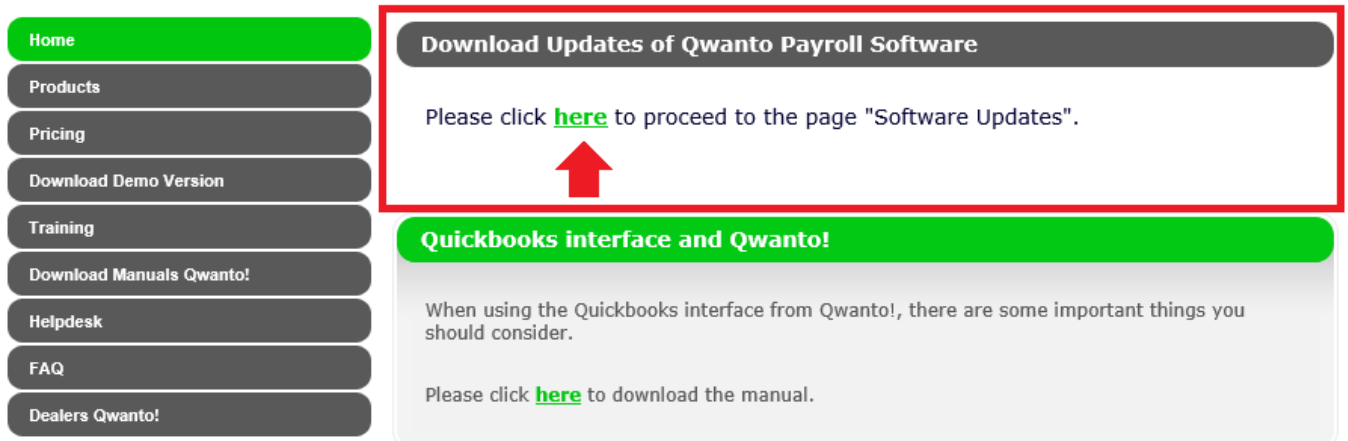

1. Open the website [www.qwantopayroll.com](http://www.qwantopayroll.com)
2. Click on the **Logon button** (upper right corner). The **User Log In** screen will appear. Fill in your Username and Password (as mentioned on your License voucher).

*If you forgot your Username and Password please send an email to our helpdesk: [support@qwantopayroll.com](mailto:support@qwantopayroll.com)*

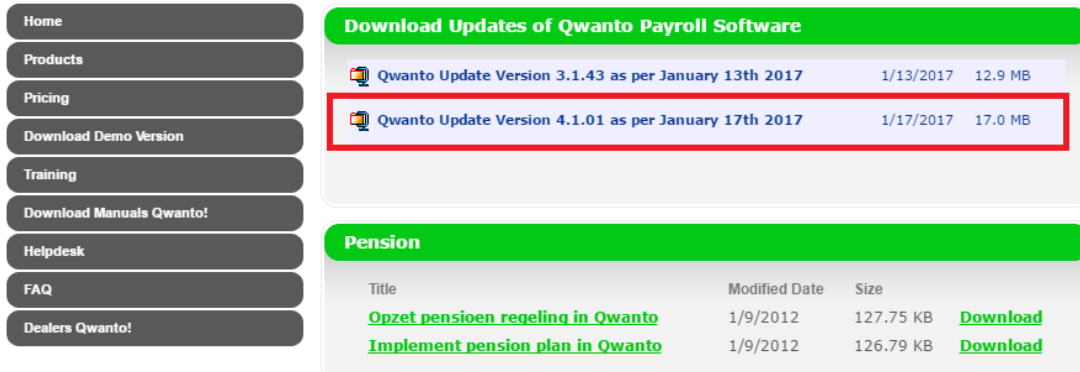

**TIP:** After you are logged on your name or the company name will appear in the button next to the logon button.

3. After logging in the software updates can be downloaded by clicking on the button "here" as in picture below.

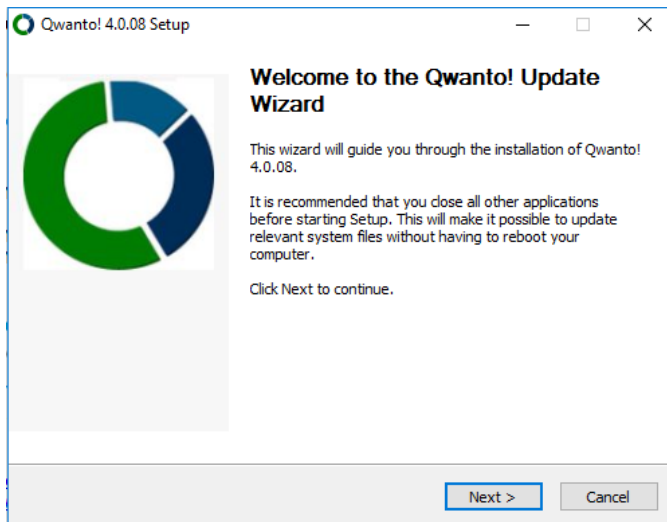

- You will be directed to the page “Software Updates”. Click on the Qwanto update version and the system will guide you through the download and installation of the update.

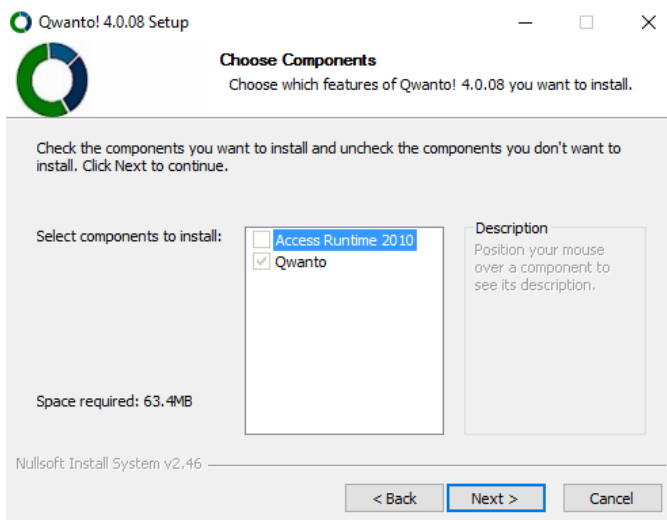

Title	Modified Date	Size	
<a href="#">Opzet pensioen regeling in Qwanto</a>	1/9/2012	127.75 KB	<a href="#">Download</a>
<a href="#">Implement pension plan in Qwanto</a>	1/9/2012	126.79 KB	<a href="#">Download</a>

**NOTE: If you are using Qwanto! Version 4, you will need to download the Update for version 4!**

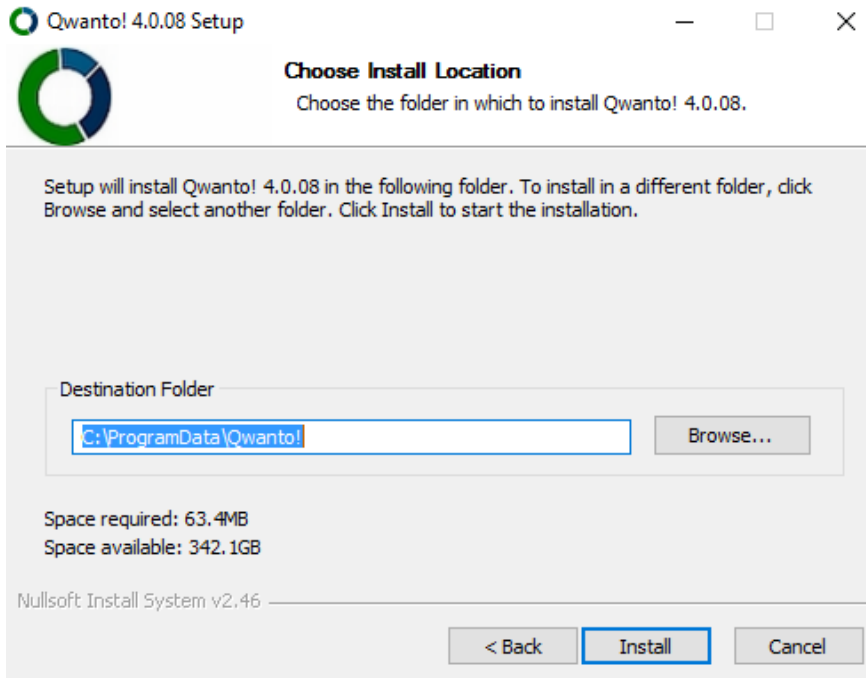

- A new window will appear, click on Next.

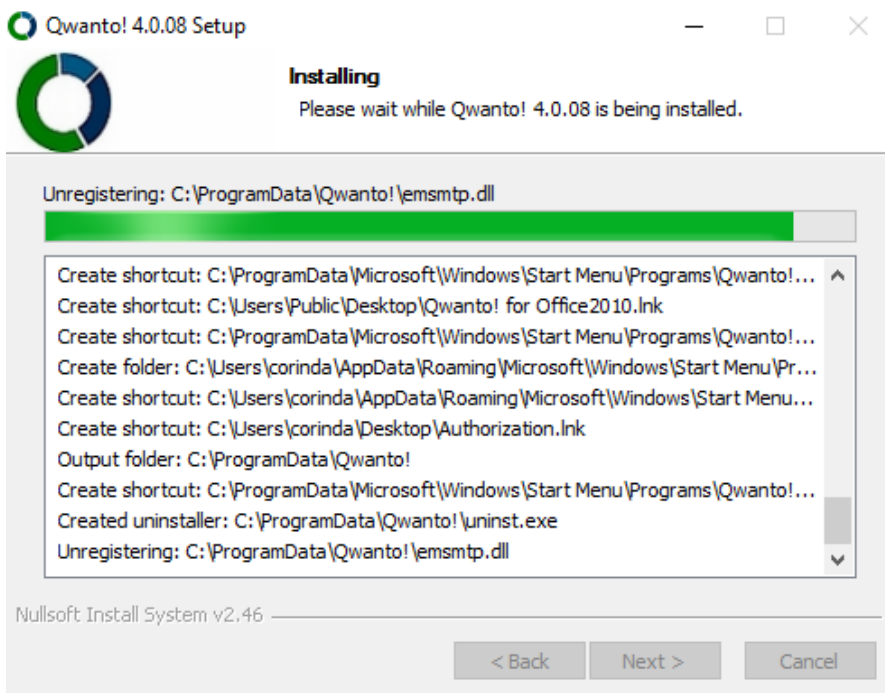

- And in the next window also on Next.

- The destination folder will be showed, this is C:\ProgramData\Qwanto!. **Do not change this!**  
Click on Install

- The update will be installing.

9. When the update is done screen below will appear and you can click on Finish.
