

Bleep bleep without the blah blah

ITP Caribbean is a professional dynamic company active in the field of automation advice, software development and network management. The professional employees, the IT concepts used, and the sober pragmatic approach make ITP Caribbean a strategic partner-in-business for clients. ITP Network Services is part of the ICT company ITP Caribbean. ITP Network Services is specialized in managing small and large computer networks. More and more organizations are leaving their IT management or parts of it to our professionals. In this way we guarantee our customers that their ICT infrastructure is optimally managed. ITP Network Services is looking for a:

NETWORK/SYSTEM ADMINISTRATOR (M/)

FUNCTIONAL DESCRIPTION

As a Network Administrator / System Administrator you work in a team of professionals within the ITP Network Services department. You perform network management and system management for customers of ITP Caribbean. You use advanced management software for this. You carry out maintenance work both remotely and on site at the customers. You will also perform installation work on new and existing systems, and you will be involved in giving advice in the field of networks and systems.

PROFILE

You like to look for solutions and can realize them. You are independent and you have a sense of responsibility and perseverance. You are used to working in a team. You work in a structured way based on standards, and you document your work. You have demonstrable knowledge and are eager to learn.

REQUIREMENTS

- Extensive demonstrable experience as a Network/System Administrator.
- Minimum MBO/HBO education;
- Practical knowledge of recent versions of Microsoft Windows servers and networks.
- Microsoft MCSE/MCITP certificates;
- Good communication skills.
- In possession of a valid driver's license and own transport.

OFFER

- Nice varied job;
- Attractive salary;
- Secondary employment conditions;
- Pleasant working atmosphere;
- Career opportunities

Are you the candidate we are looking for?
