ITP Caribbean
Information Technology Partners

Bleep bleep without the blah blah

ITP Caribbean is not your average IT company – we are dynamic, forward-thinking, and always hands-on! As strategic business partners for our clients, we specialize in automation, software development, and network management. Our smart and innovative IT solutions are transforming companies in Aruba and beyond.

VACANCY SOFTWARE DEVELOPER (M/F)

JOB DESCRIPTION

You will be involved in development projects from functional analysis to system development and implementation. Your role includes designing and developing software and deploying it at the client's site. The software is primarily focused on work-supporting applications. You work on both the back-end and front-end of the software applications, and you have expertise in databases, ASP.NET, CSS, HTML, and Javascript. You utilize an SQL database for your applications and also write SQL code.

PROFILE

- You enjoy seeking solutions and can also implement them.
- Contributing ideas to the development of functional and technical improvements.
- You are independent with a good sense of responsibility and accountability.
- You excel in both communication and programming.

REQUIREMENT

- Education at the HBO level in ICT & Software Engineering, with additional development courses.
- Three to five years of work experience, including expertise in C# or VB.net, ASP.NET (MVC), and SQL Server
- Proficiency in Visual Studio 2019/2022
- You possess knowledge in data modeling, web development, and relational databases.

WHAT WE OFFER

- Nice, varied job
- Attractive salary
- Secondary employment conditions
- Pleasant working atmosphere
- Ample prospects for career advancement

40 hours p/w

HBO in ICT & Software Engineering
